

**itelligence: tops in customer satisfaction and quality**

### **SAP consultancy itelligence Switzerland awarded 1<sup>st</sup> place in the SAP Swiss Quality Award for 2005**

Zurich, Switzerland; Bielefeld, Germany, March 8, 2006: itelligence Switzerland was awarded 1<sup>st</sup> place in the SAP Swiss Quality Award for 2005. At the SAP DACH Partner Congress in Berlin on February 19 and 20, 2006, the SAP Swiss Quality Award was awarded for the 11<sup>th</sup> time in 2005. About 50 partners comprise the network evaluated in Switzerland. The Quality Award is thereby awarded to only the three best partners. In the years 2002 and 2004, itelligence achieved third place each time. Now, the SAP customers have selected itelligence for first place for the first time. itelligence received the top grade of 10 from its customers in two categories, and particularly excelled with its highly motivated team and consultants, superbly trained in the newest topics.

The award is based on the results of the customer survey conducted each year by SAP. The survey is processed worldwide by an independent opinion research institute and contains questions regarding the overall satisfaction of SAP customers in regard to quality, professionalism, availability and the support provided by the respective partner for their projects.

Armin Frei, Managing Director of itelligence Switzerland says "this 1<sup>st</sup> place convincingly documents – as did the previous awards – the consistent quality of consulting by itelligence."

Furthermore, in Switzerland itelligence is a Special Expertise Partner of SAP in the areas of SAP NetWeaver, SAP NetWeaver Portal, SAP Analytics and SAP SRM. Special Expertise Partners have to prove their qualifications anew each year in SAP technology and market know-how.
