

### **SAPPHIRE 2008 in Berlin is a highlight of the SAP year – itelligence in Hall 3.2/ER 2.8 SAP consultant itelligence among the finalists of the SAP Pinnacle Award 2008**

Zurich (Switzerland) – May 19, 2008 – itelligence is one of the leading SAP partners in the midmarket – this has once again been confirmed following the nomination that the SAP consultant has received in two categories: SME Channel and Services and Industry Co-Innovation.

It is thanks to its service capability in the midmarket that itelligence has reached the final in the SME Channel Partner EMEA category. This underlines the outstanding cooperation with SAP in the development and sales of industry solutions for SMEs as well as the successful itelligence AG projects in the midmarket. Based on the Swiss solution Informations- und Einsatz System (IES) for “*Koordinierter Sanitätsdienst*” (KSD – coordinated medical services), itelligence now finds itself a finalist in the Service – Industry Solutions Co-Innovation category. This Enterprise SOA-based solution is one of the leading global offerings for eGovernment in the health industry. On May 18, 2008 SAP will announce the winners at a ceremony in Berlin.

“We are working very hard at being and at remaining one of the leading SAP consultants. We implement this SAP expertise within a very short timeframe in SME projects and in corporate group environments. I am extremely pleased that we have reached the final round in two very different categories as this shows how successful we are through our strategy,” said Herbert Vogel, CEO of itelligence AG.

Further information about the itelligence KSD solution, including an SAP film regarding the service of the Swiss medical services, can be found at the following Internet address: [http://www.itelligence.ch/ch/documents/At\\_Work\\_KSD\\_Schweiz\\_d.wmv](http://www.itelligence.ch/ch/documents/At_Work_KSD_Schweiz_d.wmv).

The SAP consultant will be presenting its solutions and services for international SMEs and Groups at SAPPHIRE 2008 in Berlin in Hall 3.2 at stand ER2.8. One particular focus is the development of the Asian market. For this reason, the full-service IT provider has maintained an office in Shanghai, China, since March 2008. The SAPPHIRE trade fair is one of the most important communication events between SAP consultants and their customers in the SAP field.

Press Release - itelligence

SAPPHIRE 2008 in Berlin is a highlight of the SAP year – itelligence in Hall 3.2/ER 2.8
