

itelligence receives top grades from customers and an SAP award

SAP bestows SAP Pinnacle Award on itelligence in the Customer Satisfaction category

Vienna (Austria), Bielefeld (Germany), May 15, 2007 – Today itelligence AG announced that it has been recognized by SAP AG at the SAPPHIRE 2007 customer conference in Vienna with the Pinnacle Award in the Customer Satisfaction category. With this, itelligence has received one of the highly sought after Pinnacle Awards for the second time in a row at the SAPPHIRE, this time in the Customer Satisfaction category. In 2006 the full-service IT provider for SAP environment won first place in the Regional Excellence EMEA category.

Among other things, itelligence received the Pinnacle Award at the SAPPHIRE in Vienna this year for the outstanding results achieved by itelligence in SAP's global customer satisfaction survey and overall for the worldwide customer commitment of the company.

Herbert Vogel, CEO of itelligence, commented that "being able to accept a Pinnacle Award for the second time in a row is a great honor and pleasure. Especially as here customers have specifically chosen their favorites for service and consulting – worldwide and in all regions. Our continuous investments in quality management, service and the professional development training of our employees are clearly paying off. The Pinnacle Award for Customer Satisfaction is in my view one of the most significant awards in the industry."

SAP and itelligence have been working together successfully since 1989. This makes itelligence one of SAP's oldest partners, having achieved numerous certifications in that time including Global Partner Hosting, Global Services Partner, SAP Suite Business, Service and Support Alliance Partner of SAP. Within the scope of SAP PartnerEdge, itelligence has been a SAP Gold Partner in Germany since 2006; in 2007 Gold partnerships in Switzerland, UK and the USA followed.
