

Demand for PLM solutions for SMEs increases

itelligence once again named Special Expertise Partner for SAP Product Lifecycle Management (SAP PLM) by SAP

Bielefeld (Germany), September 4, 2007 – SAP Deutschland AG & Co. KG, Walldorf, has once again named itelligence AG as "Special Expertise Partner for SAP Product Lifecycle Management" (SAP PLM). In doing so, SAP is honoring the high level of product and process expertise in addition to the well-established project competence of itelligence in the area of SAP PLM.

"Through our exceptionally good cooperation with SAP and our extensive PLM experience in the SAP environment, we were once again named Special Expertise Partner for SAP PLM," says Dr. Hans-Joachim Langen, Manager of the Product Lifecycle Management business area at itelligence AG. "We will use this nomination to further build on our PLM knowledge and project experience for customers, including the use of cProjects for the management of development projects, documentation management and collaboration with partners in the development sector, model and drawing management for SolidWorks, as well as management of change processes. For us it is especially important to practically implement PLM solutions for SMEs."

The demand for Product Lifecycle Management has especially increased among SMEs. Last year, itelligence was thus able to win new customers for SAM PLM from the classical and upper midsize market in all industry branches, including Krone Fahrzeugbau and Bystronic Maschinen AG.

About itelligence

itelligence is one of the leading international full-service provider for SAP employing about 1,100 highly qualified employees in 15 countries and in 4 regions (America, Western Europe, Eastern Europe and Germany/Austria).
