

itelligence AG and NTT DATA announce first joint customers in Japan Partnership begins successfully

Bielefeld (Germany) – July 22, 2008. The partners itelligence and NTT DATA are announcing their first project together in Japan. Testo AG, long-time customer of the internationally successful IT full-service SAP provider, is introducing the SAP solution for the finance segment and logistics in its Japanese branch. The Japanese branch is already the 21st branch that Testo AG is putting into practice with the help of consultants from itelligence and now NTT DATA. In May 2008, the Testo SAP system in Shanghai, second location of in China of the manufacturer of measuring instruments, was successfully connected to the global IT system of the company.

Testo is now supported in Japan by the consultants from NTT DATA Science Corporation, a subsidiary of NTT DATA. The connection to the Testo branch is a part of Testo AG's entire global SAP roll-out, in which 21 of the total 27 branches are now connected.

“The Testo AG project underlines our success in the Asian SME market. Customers can depend on our experience in implementing IT projects. We work with a pragmatic implementation approach and follow clear time targets. At the same time, customers benefit from the global possibilities offered by itelligence AG, which we are expanding even further with the addition of NTT DATA. All this supports our dynamic growth plans in Asia”, commented Andreas Leidloff, itelligence AG Director for Asia/Pacific.

About Testo

Testo AG is a leading global manufacturer of portable, electronic as well as stationary measuring instruments for climate and refrigeration technology, heating and installation, emissions control, industrial applications and the foodstuffs industry. With more than 1,500 employees, Testo is represented in 27 subsidiaries and more than 70 trading partnerships around the world.
