

**CeBIT 2008: Seven at once – because quality pays**

### **itelligence announces qualification by SAP in seven industries and in two continents**

Bielefeld, Germany, March 4, 2008 – itelligence announces qualification by SAP for seven industry solutions. The special distinction "A qualified industry solution" is awarded to SAP partners who show proven, wide-reaching competence and consulting knowledge in particular industries, which they market as corresponding extensions to the SAP Business All-In-One package.

On this basis, itelligence can announce a very special distinction today. The internationally successful complete IT services provider in the SAP environment achieved the qualification for its industry solutions in no less than seven industries. The SAP qualified solutions now include the itelligence trade solution it.trade; the solution for the chemical industry, it.chemicals; for the consumer goods industry, it.consumer; for the manufacturing industry, it.manufacturing; for the furniture industry, it.wood for furniture; for the wood industry, it.wood for timber; and finally, for the non-steel industry, it.metal. Further qualifications are already in the testing phase at SAP. With this, itelligence is among the most extensively honored SAP partners.

itelligence is one of the few internationally operating midmarket partners of SAP which offers its solutions in Europe as well as in the USA. The itelligence industry solutions it.manufacturing, it.chemicals, it.consumer and it.trade were qualified by SAP for the American and European markets. For itelligence customers with subsidiaries in the American market, this means that they also receive the proven, ongoing high quality of an industry solution for various markets.

Mark Albrecht, Director Business Development, itelligence AG states, "For our customers, the double qualification has many advantages - documents can be used worldwide and can be implemented as a standard in many customer projects. That significantly reduces the project times. At the same time, we offer our midmarket customers the most up-to-date SAP experience – translated to the midmarket."

Press Release - itelligence

CeBIT 2008: Seven in a row – because quality pays

itelligence announces qualification by SAP in seven industries and for two continents

All itelligence industry solutions are based on the SAP Business All-in-One packages of SAP and provide comprehensive extensions for their respective industries. The knowledge of itelligence consultants in their various industries forms the basis of these extensions.

#### **About itelligence**

**itelligence is one of the leading international full-service provider for SAP employing more than 1,220 highly qualified employees in 16 countries and in 5 regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria). As a mySAP Business, Service and Support Alliance as well as Global Partner Hosting and Global Services Partner, itelligence realizes complex projects in the SAP environment for over 2,500 customers worldwide. In 2006, itelligence obtained the status as Gold Partner SAP in Germany, U.S. followed in 2007. The company's services range from SAP consulting and licensing to outsourcing and services to proprietary industry-specific SAP solutions. In 2006, itelligence generated total sales of EUR 163.8 million, preliminary figures for fiscal year 2007 show 190.9 million Euros.**
