cargo partner AG decides in favor of itelligence as SAP consultant

Vienna, April 4, 2006 - The itelligence Business Solutions GmbH, Vienna, has received the contract for the company-wide introduction of mySAP ERP for cargo partner AG, Fischamend/Austria. The project includes advising and training for some 80 users in 16 countries along with international installation. The project begins in April 2006 and the first step will be the introduction of the mySAP module for financial accounting, assets accounting, controlling and procurement in Austria as well as the for roll-out at the international branches. The second step will consist of the implementation of mySAP Strategic Enterprise Management – Business Planning and Consolidation System (SEM-BCPS) - for Group-wide planning and company consolidation.

cargo partner AG, founded in 1983, is an independent transportation and logistics service provider. Core competencies include transportation chains and related logistics services along with its strong position in the air and ocean freight industry. As one of the large market leaders in Central and Easter Europe, cargo partner is pursuing a global strategy with 900 employees and 40 regional offices. "We expect a noticeable increase in productivity for our employees in the future due to the adoption of the new solution, especially in the integration of our worldwide locations into one system that also takes national financial accounting legislation and local languages into account as part of the standard version. Likewise, an interim balance sheet can be created at any time with the click of a mouse. Through the application of company-wide consolidation and planning, the maximum amount of time is saved which will efficiently advance our international expansion," said Josef Oswald, CFO of cargo partner AG, explaining the goals of converting company software to SAP.
