

### **Cutting Edge Cancer Treatment Technology Company Chooses All-in-One it.manufacturing Solution to Guide Continued Global Growth**

### **TomoTherapy Selects itelligence® for mySAP™ Solution Partner**

Cincinnati, Ohio, Aug. 22, 2006 — itelligence today announced that TomoTherapy, a leading producer of cutting-edge cancer treatment technology, has selected a mySAP All-in-One solution to support its new business strategy for future national and international growth.

itelligence, a leading, global SAP solutions provider (US), provided TomoTherapy the world-class information infrastructure and rich functionality of SAP with its pre-configured it.manufacturing solution.

TomoTherapy, based in Madison, Wisconsin, provides advanced radiation treatment technology for cancer patients. The products and services TomoTherapy offers, such as their Hi-Art System®, allow doctors to more accurately locate tumors and deliver more precise radiation treatment. In addition, it helps reduce significant damage to surrounding tissue that radiation can cause.

TomoTherapy's success effectively providing treatment solutions has led to rapid growth – with over 450 employees and plans to expand to over 550 employees worldwide within the next year. With this growth, both nationally and globally, they needed an ERP platform that could handle rapid expansion without slowing down current operations. Additionally, the company needed to do business internationally while avoiding typical roadblocks such as language barriers and currency differences.

“it.manufacturing was the right type and sized solution for a fast growing mid-sized company such as TomoTherapy,” said Martin Christopher, Director of I.T. “itelligence’s solution allowed us to make imperative changes with minimum hindrance to our current operations including adherence to Sarbanes-Oxley, language and currency translation, and overall better management of resources throughout our expansion.”

In making a decision for an SAP partner, Christopher said the choice to select itelligence was clear. “We liked the fact that itelligence is an SAP partner that is focused on the mid-market

and truly understands the manufacturing vertical. Their expertise and clarity of vision for an all-in-one solution means we don't have to make these processes from scratch - we have best practices built in," said Christopher.

"We are proud to provide the right solution for TomoTherapy to ensure their strategic growth as they continue to provide much-needed and inspired products world-wide," said Steve Niesman, itelligence president and CEO. "TomoTherapy's selection further solidifies itelligence's position as the leading choice for midsized manufacturing companies seeking mySAP All-in-One solutions."

**About mySAP™ All-in-One**

mySAP™ All-in-One solutions are designed to meet the needs of small and midsize enterprises with industry-specific requirements. Based on mySAP™ Business Suite, mySAP All-in-One solutions are pre-packaged, affordable and quick to implement, helping companies streamline business processes, increase efficiency and achieve a rapid return on investment. More than 4,600 customers worldwide underline the solution's solid SME market presence.

**About TomoTherapy Incorporated**

Based in Madison, Wisconsin, TomoTherapy Incorporated has developed a revolutionary new medical system that combines on-board CT imaging with conformal radiation therapy to provide unprecedented precision in the treatment of cancer patients. The TomoTherapy® Hi-Art System® is designed to target radiation treatment to the patient's tumor while helping to limit damage to the surrounding tissues. The technology was developed in collaboration with the University of Wisconsin.

**About itelligence**

itelligence, Inc. is a wholly owned subsidiary of itelligence AG, an international consulting company with a global presence in 15 countries. Headquartered in Cincinnati, Ohio, itelligence maintains regional offices in Atlanta, Chicago, Dallas and Minneapolis. itelligence provides a broad range of consulting services and customer support options, including implementations, call center, hosting and training services. itelligence is an SAP Vertical Solutions Reseller (VSR) for mySAP All-in-One solutions and an SAP Business Partner and reseller for the Small and Midsize Business (SMB) segment.
