

itelligence ranks among Germany's top IT companies

itelligence climbs to twelfth place in Lünendonk® rankings

Frankfurt, June 11, 2003 - itelligence AG, a full-service provider for SAP, continued to be ranked among Germany's leading IT consulting and system integration companies in 2002. The company improved its position by two places and is now ranked twelfth in the recently published Lünendonk® lists for 2002. The Lünendonk® lists rank the 25 leading companies on the German market in the categories standard software companies, IT consulting and system integration companies, management consultancies and IT service providers. First published 20 years ago, the Lünendonk® lists are seen as a barometer for the entire IT and consulting market.

In the opinion of the company, this ranking confirms itelligence's strategy which centres on the SME sector and a wide range of products and services for international companies. The full-service provider for SAP focuses on a comprehensive range of innovative solutions for the implementation of SAP applications coupled with IT outsourcing services and other related services. This successful combination enabled itelligence AG to move up from fourteenth to twelfth rank in spite of the difficult market environment in 2002.

Herbert Vogel, Board Chairman of itelligence AG: "As a full-service provider for SAP, we offer one of the most comprehensive ranges of SAP solutions. The Lünendonk® lists once again confirm that we are one of the leading German providers of IT services and continue to improve our position. This is a success we can be proud of."

itelligence has been one of only twelve certified "Global Services Partners" of SAP AG since early 2003. In May 2003, itelligence AG was furthermore awarded the status of "Special Expertise Partner mySAP Enterprise Portal".

Press release of itelligence AG: itelligence climbs to twelfth in Lünendonk® rankings
