

Dual success for itelligence: solutions for the German and American automotive industry have been awarded SAP's seal of approval
itelligence AG's it.automotive supplier and it.auto solutions qualified for SAP R/3 Enterprise

Frankfurt, December 9, 2003 - itelligence AG, an international full-service provider for SAP, today announced the company's solutions for both the German and American automotive industry have been qualified for SAP R/3 Enterprise. The approval of it.automotive supplier in Germany and it.auto in the USA confirms itelligence's automotive industry expertise and the complete compatibility of its industry solutions with the latest SAP technology.

itelligence is one of the first IT consultancies to offer its SAP-approved industry solutions for the two most important markets in the automotive industry. As a Global Services Partner of SAP, these qualifications underscore the company's international project expertise and ability to serve customers regardless of geographical location.

The early approval of itelligence's industry solutions enables the company's consultants to participate in the global ramp-up phase of SAP's Automotive solutions portfolio. The Bielefeld-based consultancy sees its participation in the ramp-up phase as a big success of its close national and international cooperation with SAP.

it.automotive supplier and it.auto

Computer-assisted collaboration is increasingly gaining importance in the automotive industry. In order to meet these requirements, manufacturers and suppliers need innovative high-performance software solutions. it.automotive supplier and it.auto have been specifically developed with the needs of the automotive industry in mind. These fully integrated solutions are based on SAP for Automotive. They support the entire logistics chain - from the pre-production order to the sales order submitted by EDI to production planning and control without any media breaks - and ensure transparency across the entire supply chain.
